...and the winds blew and beat on that house, but it did not fall, because it had been founded on the rock. Matt 7:24-27

Building on a FIRM FOUNDATION

Building the Leadership in the Pacific Region through Wesleyan World Missions.

Your commitment of up to a day’s income towards this year’s Self Denial Offering will continue to support local leadership development on site at the Noro Training Centre in the Solomon Islands.

The larger and higher a building, the deeper and stronger must the foundation be. The time taken to build a solid foundation is as important as the building itself.

The work of our mission field in the Solomon Islands is moving steadily forward. For more than 15 years, great foundations were laid by Ray and Gwen Akers, Kay Fulcher and others in ministry training and great practical work was achieved by the Davies. With David Collins moving to the Solomons and the Mosses recently volunteering to help with site development the ‘building’ is starting to rise above the foundations.

With the current transition from regional part time training, to centralised full time courses this ensures that the standard of training continues to rise along with the commitment level of those that attend. This in turn means that the church at the grass roots becomes stronger and can reach further towards God’s plan for His People in the Solomon Islands and beyond.

As we in Australia stand with the emerging leadership in the Solomon Islands Wesleyan Methodist Church, National Supt. Rev George Velopide, Lecturer Rev. Oliver Poloso, and Lecturer in training, Richard Soto, we can be part of the exciting church that God is building in the Pacific.

Your commitment of up to a day’s income towards this year’s Self Denial Offering will continue to support local leadership development on site at the Noro Training Centre in the Solomon Islands.
